

## TABLE OF CONTENTS

<b>1.0 Introduction</b> .....	<b>6</b>
1.1 Background.....	6
1.2 Study Design.....	6
1.2.1 Monitoring Activities.....	7
1.2.2 Sampling Sites .....	8
1.2.3 Sampling Study Chronology.....	10
1.2.4 Quality Assurance/Quality Control.....	11
<b>2.0 Meteorological Data</b> .....	<b>11</b>
<b>3.0 Chemical Tape Monitoring</b> .....	<b>13</b>
<b>4.0 Annular Denuder System Monitoring</b> .....	<b>15</b>
4.1 Method .....	15
4.2 Sampling Period.....	17
4.3 Sample Preparation and Collection.....	18
4.4 ADS Sample Handling and Custody Requirements .....	19
4.5 Sample Extraction and Analysis .....	19
4.6 Results and Discussion .....	23
<b>5.0 Total Suspended Particulate Monitoring</b> .....	<b>26</b>
5.1 Method .....	26
5.2 Quality Assurance and Quality Control Procedures .....	26
5.3 Data Management .....	26
5.3 Results.....	27
<b>6.0 Metals Analysis of TSP Filter Samples</b> .....	<b>29</b>
6.1 Analysis by ICP/MS .....	29
6.2 Analysis by SEM-EDS .....	33
<b>Appendix A: Quality Assurance Project Plan</b>	
<b>Appendix B: Wind Roses for Annular Denuder Sample Period</b>	
<b>Appendix C: TSP Data and Wind Roses for Total Suspended Particulate Sample Period</b>	
<b>Appendix D: EPA Compendium Method IO-4.2, “Determination of Reactive Acidic and Basic Gases and Strong Acidity of Atmospheric Fine Particles (&lt;2.5µm)”</b>	
<b>Appendix E: Analytical results of ADS samples</b>	
<b>Appendix F: DAQ Total Suspended Particulate Quality Assurance Plan</b>	
<b>Appendix G: Metals Analysis Reports</b>	
<b>Appendix H: SEM-EDS Analysis Report</b>
